

# **a partial POLICE STATE UPDATE**

The Police state has leapt forward in the last year on every level. At the federal level we now have unmanned drones flying over our cities and states courtesy of the CIA. <http://www.csmonitor.com/USA/2012/0616/Drones-over-America.-Are-they-spying-on-you>

We have the codification in law of indefinite detention without trial. When the current president signed the NDAA National Defense Authorization Act he signed a law that would allow for the arrest and indefinite detention of citizens without trial.

<http://www.aclu.org/blog/tag/ndaa>

The government had been doing this to the undocumented for years in detention centers run by ICE in the U.S. and by the CIA and Military abroad. <http://www.godlikeproductions.com/forum1/message1620097/pg1>

We have the Justice department conspiring with local government to deprive patients of their life saving medicine. The Hummingbird dispensary was driven out of business and the city still will not permit others to fill the need for cannabis based treatments in the community.

The local government has gone to the extreme of further criminalizing sleep in the summer of 2012, making it a misdemeanor to sleep outside in the city.

They were following in the footsteps of the county board of supervisors that had used a phony emergency to outlaw dissent at the courthouse.

The county action was a reaction to their inability to respond to the issues exposed by Occupy Eureka. The District Attorney and other county government conspired to create a climate of fear about the protest and then used violent repression to remove the people temporarily from in front of the courthouse. [http://www.times-standard.com/localnews/ci\\_20271861/humboldt-supervisors-enact-urgency-ordinance-protest-hours-limited?source=pkg](http://www.times-standard.com/localnews/ci_20271861/humboldt-supervisors-enact-urgency-ordinance-protest-hours-limited?source=pkg)

The county refusal to address the problems that the Occupy Movement planted on their doorstep is why the police state thrives. <http://www.humboldt.edu/ccrp/total-population-below-poverty-level-redwood-coast-region>

In what might be the most egregious affront the City of Eureka has hired Murl Harpham to be the police chief. The hiring is illegal. He is over 65 and has worked for EPD for more than 25 years. Both require his mandatory retirement. He is also When a local activist came to the council meeting to bring this criminal act by the city to the attention of the public she was censored on the public access broadcast and the city website.
